- Glue the two pieces of Designer Paper together as shown on the photos by overlapping the large tab in the center where the cuts were made. Fold over the two ends on the scored lines at the top and glue in place so you have both patterns showing:

- Stand up one side and glue the two small tabs to the inside bottom to create the three sides. Fold the two sides over on the scored lines and glue the two sides to the 2<sup>nd</sup> piece overlapped to create the box shape:

- Add two holes on the front top layer and the back about 1" from the edge and loop ribbon through the holes to create handles. Tie a knot on each end on the inside.
- Cut the large die shape from the Hippo & Friends Dies with Basic White Cardstock. Stamp the sled image to the right and color with Stampin' Blends. Glue to the front of the gift bag.
