Stampin' Up! Supplies Used:

- Cardstock: Basic White Thick (159229); Cherry Cobbler (119685); Timeless Metallic 12" x 12" Specialty Paper (DSP) (168548)
- Accessories: Baker's Twine Essentials Pack (155475); Iridescent Pearl Basic Jewels (158987)
- Tools: Party Alphabet Dies (165263); Dreamy Snowflake Dies (168384); Swirls of Magic Embossing Folder (RETIRED)

alternative Dreamy Snowflakes Hybrid Embossing Folder (168384) or your favorite Christmas DSP.

- Miscellaneous: Multipurpose Liquid Glue (110755); Adhesive Sheets (152334); Mini Glue Dots (103683); Mini Stampin' Dimensionals (144108); wooden plank from Dollar Tree; white acrylic paint; paint brush.

INSTRUCTIONS:

1. Paint all four sides of your wooden plank with white acrylic paint. Attach an Adhesive Sheet to a 5" x 7 ½" piece of Cherry Cobbler cardstock and to a 2 ½" x 5" piece of Timeless Metallic Specialty. Cut three JOY's from the Cherry Cobbler cardstock and one from the Timeless Metallic Specialty DSP.

2. Attach the JOY's to each other with the Timeless Metallic letters on top. Tie a bow using the white Bakers Twine around the"O".

3. Cut the Basic White Thick cardstock to fit your wooden plank. The one in the photo is 5 ½" x 7 ½". Emboss it and attach it to the plank with Multipurpose Liquid Glue using the broad tip (spreading the glue all over the wood).

4. Attach layered JOY to the embossed cardstock.

5. Cut five snowflakes using the Dreamy Snowflake Dies and attach them to the décor piece with Mini Stampin' Dimensionals. Add three Iridescent Pearl Basic Jewels to the "Y" and to the "J".

Decorate the back the same way if you want to put it in a window. You can also use the negative as I have here.
